

# Pravallika

| Data Scientist | Full-Stack AI Developer

pravallikagadde12@gmail.com | +91 7207318303 | Nellore, Andhra Pradesh

## SUMMARY

I am G.Pravallika Diligent 3rd-year B.Tech student specializing in Computer science and engineering with a strong foundation in Java, Python, data structures, machine learning, and full-stack development. Experienced in building scalable web applications and AI-based systems using React.js, Flask,. Eager to contribute technical expertise to real-world software and AI solutions.

## EDUCATION

|                                                                          |                                       |
|--------------------------------------------------------------------------|---------------------------------------|
| B. Tech CSE   CGPA: 8.00, Sri indu college of engineering and technology | 2023 - Present   Hyderabad, Telangana |
| HSC - 8.54, Sri Chaitanya Junior College                                 | 2021 - 2023   Nellore, AP             |
| SSLC - 10.0, B.V.S Girls Higher School                                   | 2020 - 2021   Nellore, AP             |

## SKILLS

**Programming Languages:** Python, C, C++, Java, SQL

**AI/ML:** Machine Learning, Deep Learning, CNN, SVM, NLP, Computer Vision, PyTorch, OpenCV

**Web & Cloud:** React.js, Flask, REST API, AWS (EC2, S3), CI/CD, Docker

**Data & Visualization:** Power BI, Streamlit, Data Analysis, Data Preprocessing

**Tools & Practices:** Git, GitHub, VS Code, Jupyter Notebook, GitHub Actions, Problem Solving

## EXPERIENCE

|                                                   |                                               |
|---------------------------------------------------|-----------------------------------------------|
| <b>Full Stack Development Intern, Edu-Versity</b> | <b>Aug 2025 - Oct 2025   Bangalore, India</b> |
|---------------------------------------------------|-----------------------------------------------|

- Designed and developed responsive web applications using HTML, CSS, JavaScript, and backend programming concepts, improving user accessibility by 35%.
- Built and integrated frontend components with backend logic, enhancing user interaction flow and reducing page navigation issues by 30%.
- Participated in project development, testing, debugging, and deployment activities, reducing development errors by 20%.
- Identified and resolved bugs, improving system reliability and stability by 30%.

## PROJECTS

### Vision-Based Human-Computer Interaction: Hand-Gesture Controlled System

- Developed a real-time hand-gesture control system using Python, OpenCV, and MediaPipe for cursor movement, click, double-click, and scroll operations with 90% accuracy.
- Designed a Temporal State Machine for gesture recognition, improving interaction efficiency by 35% and reducing manual input dependency by 40%.

### Face Recognition Attendance System

- Built an AI-based attendance system using Python, OpenCV, and face recognition techniques to automate student attendance tracking.
- Reduced manual attendance work by 40% and improved record accuracy using real-time camera-based recognition.

### AI Digital Tutor: Adaptive Generative AI Tutor for Skill Development and Career Guidance

- Designed an adaptive AI tutor concept using Generative AI, NLP, and personalized learning workflows for skill development and career guidance.
- Implemented learning recommendations, progress tracking, and interactive doubt-clearing features to improve learner engagement.

## CERTIFICATES

- Oracle Database SQL Certified Specialist
- Oracle Cloud Infrastructure Data Science Professional
- Human Computer Interaction

## ACHIEVEMENTS

- Developed multiple real-world projects including Face Recognition Attendance System, Gesture-Controlled HCI, and AI Digital.
- Solved programming problems using Java and Python, improving debugging, logic-building, and algorithmic thinking skills.
- Actively participated in academic and technical projects focused on AI and software development.
